The De JONG & Co. Fruit Bowl is a minimal, contemporary design milled and turned by hand from a solid block of lumber using traditional methods. The Fruit Bowl features smooth curves and clean, sharp lines. The lower contour allows the bowl to be comfortably picked up off of a flat surface. A rounded recess underneath of the bowl keys in perfectly with the De JONG & Co. Butcher Block Table. Finished with a natural food safe walnut oil and wax. Pictured in natural maple with our food safe, hand-rubbed oil & wax finish.
