An elegant and substantial platform, the Mandelbrot Table Top sits on top of the minimal Heldon table base. It features a two and a quarter inch thick top and able to provide massively solid and stable support in any custom shape or size. Featuring De JONG & Co.'s signature Mandelbrot beveled edges it is a simple yet refined table top. Excels equally as a dining centerpiece, work, entryway, office, or conference table always with the distinction of a contemporary heirloom. The Mandelbrot Table is a benchmark of quality inherent in the work of De JONG & Co. Pictured in natural walnut with a hand-rubbed oil & wax finish.
