Walnut	3,000
Oak	2,200
Maple	2,200

The Merton Bench is the perfect companion to our Merton Table. The Merton Bench is a graceful yet massive object that brings solidity and refinement to any room. Angled legs and supports provide poise and stability. The two and a quarter inch thick top is a strong, easily self-supportive platform showing no flex regardless of the payload. Both are sturdy as a timber-frame and carefully milled and assembled by our skilled craftsmen. The Merton Table is comfortable as an entryway, console, kitchen, office, or work table. The Merton Bench excells as seating but is also useful as a coffee or side table. Pictured in natural oak with a hand-rubbed oil & wax finish.
