The De JONG & Co. Serving Bowl is a minimal, contemporary design milled and turned by hand from a solid block of lumber using traditional methods. The Serving Bowl features smooth curves and clean, sharp lines. The lip contour provides a comfortable feel for your thumb allowing for easy one-handed pick up along with its surprising lightness of weight. A rounded recess underneath of the bowl keys in perfectly with the De JONG & Co. Butcher Block Table. Finished with a natural food safe walnut oil and wax. Pictured in natural walnut with our food safe, hand-rubbed oil & wax finish.
